NBR Approved VAT Management Software

Why VAT Managment Software ?

- National Board of Revenue (NBR), Bangladesh has made the submission of VAT returns compulsory through a VAT managment software.

- Use of software is mandatory for companies having an annual turnover of TK 5 crore & above.

- The system will reduce the gap in between the organization and NBR regarding the current calculation jargon.

- The application will further integrate with iVAS to submit the VAT reports without any error.

Deployment Model

Reducing any possible unwanted complexities by setting forth a number of viable options /platforms to run the software, PrismVAT is as flexible as can be.

The Software can be deployed as a Fully Stand Alone Model for independent operations, or an online Web Based Model. Even the neo-progressive Cloud Computing Technology that multinational organizations all over the world are now very much in sync with, can be selected as the deployment model for PrismVAT.

Stand-Alone /Desktop

Web/Network Based
